Consumer Notes:

July is a month of "lasts" in case you didn't notice ... we get the final volume of Evangelion TV and the final volume of Captain Tylor TV. Perhaps more interesting, though, is that there are *9* (scheduled) DVD releases, and there is only a single laserdisc coming. Frankly, after the end of this year (perhaps earlier), I suspect that we'll probably see the end of anime laserdiscs entirely. Watch the release dates, though, they seem to have a tendency to slip! If you have a younger fan in the family, there are a number of new Sanrio titles (Keroppi, Pekkile and Pochacco) which are similar universe shows to Hello Kitty (which also has a price drop this month). If instead you're a videogame fan, check out Nightwarriors: Darkstalkers Revenge and the Resident Evil CD Soundtrack. Ranma fan? Check out the new watch coming this month!

JEFF'S PICK(S) OF THE MONTH

Irresponsible Captain Tylor ends, and you expect me to mention something else? Seriously, it's a great ending (one of the best in the medium, period), but you certainly also want to look at Darkstalkers, which will most assuredly do really well. If that Urotsuki Doji comic is any good, you might want to consider it!
